

Fair Registration Practices Report

Land Surveyors (2009)

The answers that you submitted to OFC can be seen below.

This Fair Registration Practices Report was produced as required by:

- the Fair Access to Regulated Professions Act (FARPA) s. 20 and 23(1), for regulated professions named in Schedule 1 of FARPA
- the Health Professions Procedural Code set out in Schedule 2 of the Regulated Health Professions Act (RHPA) s. 22.7 (1) and 22.9(1), for health colleges.

Provision of Information About Registration Practices (1 / 13)

Describe how you make information about registration practices available to individuals applying or intending to apply for registration. Specify the tools used to provide information, and the manner in which you make that information available, current, accurate and user friendly in each of these subcategories:

a) steps to initiate the registration process

Most applicants obtain registration information from our website, which contains a separate area for Careers/Membership. This area contains downloadable files describing our course requirements for both a licence and a Certificate of Registration as well as a description of the registration process, including materials to be submitted and fees. Similar information is available in hard copy from the Association and may be picked up or mailed to interested parties on request. We receive both telephone and e-mailed enquiries.

b) requirements for registration

Requirements are detailed on our website, as above and parties who call or e-mail will receive a detailed response or referral to the AOLS website.

c) explanation of how the requirements for registration are to be met, such as the number of years of schooling required for a degree to be deemed equivalent to an Ontario undergraduate degree, length and type of work experience, credit hours or program content

As in b)

d) any education or practical experience required for registration that must be completed in Ontario or practice that must be supervised by a member of the profession who is registered in Ontario

As in b)

e) requirements that may be satisfied through acceptable alternatives

Alternatives are currently under development and information will be added to our website when these have been approved.

f) the steps in the assessment process

As in b)

g) the documentation of qualifications that must accompany each application; indicate which documents, if any, are required only from internationally trained applicants

As in b)

h) acceptable alternatives to the documentation if applicants cannot obtain the required documentation for reasons beyond their control

Through a grant from MTCU and CIC, we are currently developing alternative methods of assessing candidates who cannot provide acceptable documentation and course descriptions. We propose to use a form of Prior Learning and Assessment (PLAR) to evaluate such candidates and to form learning contracts with candidates who may require only certain parts of particular courses. The missing competencies may be obtained through means other than taking complete university courses, such as through home study and a test, or participating in certain portions of a modularized course. This project is still in progress.

i) how applicants can contact your organization

Contact information (telephone, mailing address and e-mail link) is shown on our website.

j) how, why and how often your organization initiates communication with applicants about their applications

Applicants are advised by mail immediately after approval of their evaluations and applications to article by our Academic and Experience Requirements Committee (AERC), which meets quarterly. Articling students are in continuous contact with their monitors through the preparation of their required work reports.

k) the process for dealing with documents provided in languages other than English or French

We have an arrangement with the Accreditation Assistance Access Centre (AAAC) to refer IEP's who require translation and other immigrant services.

l) the role of third-party organizations, such as qualification assessment agencies, organizations that conduct examinations or institutions that provide bridging programs, that applicants may come into contact with during the registration process

We require IEP's to have their education level assessed by a recognized third party assessment organization, such as the U of T Comparative Education Service or WES.

m) any timelines, deadlines or time limits that applicants will be subject to during the registration process

Academic evaluations are valid for a period of 3 years and if not acted upon a new evaluation may be required. If the candidate has begun and continues taking courses no new evaluation will be required. The articling process must, by regulation, be completed within 4 years unless extended due to parental leave.

n) the amount of time that the registration process usually takes

Evaluations are completed and approved by our AERC within a 4 month period. Articles are usually completed well within the 4 year limitation.

o) information about all fees associated with registration, such as fees for initial application, exams and exam rewrites, course enrolment or issuance of licence

The evaluation fee is noted in the instructions on the website. Other fees are provided to articling students after approval of their articles.

p) accommodation of applicants with special needs, such as visual impairment

Visual impairment would render a person virtually incapable of becoming a professional surveyor. To my knowledge we have never had to deal with any other special needs.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

None.

Amount of Fees (2 / 13)

Are any of the fees different for internationally trained applicants? If yes, please explain.

Our fees are the same for everyone, however IEP's must pay for the U of T or WES evaluation and possibly for document translations.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

None

Provision of Timely Decisions, Responses and Reasons (3 / 13)

a) What are your timelines for making registration decisions?

Our AERC, which must approve evaluations, articling applications and examination results, meets quarterly, so a candidate may have to wait a maximum of 4 months for approval of a specific phase.

b) What are your timelines for responding to applicants in writing?

Candidates receive written confirmation of all decisions immediately after AERC meetings.

c) What are your timelines for providing written reasons to applicants about all registration decisions, internal reviews and appeal decisions?

As in b)

d) Explain how your organization ensures that it adheres to these timelines.

We are very small, with less than 40 evaluations per year, so timelines are not an issue.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

None.

[BACK TO INDEX](#)

Access to Records (4 / 13)

a) Describe how you give applicants access to their own records related to their applications for registration.

No applicant has ever requested to see a file, however there is no information in their files that they would not be aware of or have received, so we would have no issue in allowing someone access to their own file.

b) Explain why access to applicants' own records would be limited or refused.

N/A

c) State how and when you give applicants estimates of the fees for making records available.

N/A

d) List the fees for making records available.

N/A

e) Describe the circumstances under which payment of the fees for making records available would be waived or would have been waived.

N/A

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

N/A

Resources for Applicants (5 / 13)

a) List and describe any resources that are available to applicants, such as application guides, exam blueprints or programs for orientation to the profession.

Application information is available on our website. Previous examinations are available to exam candidates for a nominal fee. We intend to scan and post these exams and make them available free of charge to our students.

b) Describe how your organization provides information to applicants about these resources.

Articling students are given a very detailed Student Handbook and prior to starting articles must attend a meeting with their articling surveyor and monitor at which they are informed about the articling process and advised of available resources.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

N/A

Internal Review or Appeal Processes (6 / 13)

In this section, describe your internal review or appeal process. Some regulatory bodies use these two terms (*internal review* and *appeal*) for two different processes, some use only one of these terms, and some use them interchangeably. Please use the term that applies to your profession. If you use both terms (for two different processes), please address both.

a) List your timelines for completing internal reviews or appeals of registration decisions.

All appeals are processed and approved by the AERC every 4 months.

A decision to deny registration to a candidate may be appealed to our Registration Committee, which would hold a hearing to determine the appeal. Such a hearing would involve lawyers and others and would be scheduled to suit the parties involved. There has been only one such appeal in the past 10 years.

i. State the number of internal reviews or appeals of registration decisions that exceeded your timelines.

None.

ii. Among internal reviews or appeals that exceeded your timelines, state the number that were from internationally trained applicants.

N/A

b) Specify the opportunities you provide for applicants to make submissions regarding internal reviews or appeals.

Candidates are advised of the appeal process and required time frames in the letter that they receive with their evaluation results.

c) Explain how you inform applicants about the form in which they must make their submissions (i.e., orally, in writing or by electronic means) for internal reviews or appeals.

As in b)

d) State how you ensure that no one who acted as a decision-maker in a registration decision acts as a decision-maker in an internal review or appeal of the same registration decision.

Registration decisions must be appealed to a completely independent body.

e) Describe your internal review or appeal process.

An appeal must be referred to the Registration Committee, who must hold a formal hearing.

f) State the composition of the committee that makes decisions about registration, which may be called a Registration Committee or Appeals Committee: how many members does the committee have; how many committee members are members of the profession in Ontario; and how many committee members are internationally trained members of the profession in Ontario.

From Regulation 1026 of the Surveyors Act:

14. (1) The Registration Committee is continued and shall be composed of,
- (a) one or more elected members of the Council to be appointed from time to time by the Council;
 - (b) three or more members of the Association who are not members of the Council to be appointed from time to time by the Council; and
 - (c) one of the members of the Council appointed by the Lieutenant Governor in Council to be appointed to this Committee from time to time by the Council. R.R.O. 1990, Reg. 1026, s. 14 (1).
- (2) Three members of the Registration Committee, at least one of whom is an elected member of the Council, constitute a quorum. R.R.O. 1990, Reg. 1026, s. 14 (2).

- (4) The Council shall select from among the members of the Registration Committee a person to be its presiding officer. R.R.O. 1990, Reg. 1026, s. 14 (4).
- (5) The presiding officer, or in his or her absence another member of the Registration Committee designated by the presiding officer, shall preside at all meetings and hearings of the Committee. R.R.O. 1990, Reg. 1026, s. 14 (5).
- (6) If a member of the Registration Committee becomes unable to act after the Committee commences a hearing, its remaining members may complete the hearing in the member's absence, if they constitute a quorum. R.R.O. 1990, Reg. 1026, s. 14 (6).

There are no IEP's on the current Registration Committee.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

Information on Appeal Rights (7 / 13)

This section refers to reviews or appeals that are available after an internal review or appeal. Describe how you inform applicants of any rights they have to request a further review of or appeal from a decision.

For academic evaluations, applicants are advised of their appeal rights in the letter that we send them with their evaluation results.

For a denial of a registration, we would inform the applicant of their right to appeal in their letter of denial, citing the appropriate sections of the Surveyors Act.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

None.

Assessment of Qualifications (8 / 13)

This category covers your processes for assessing all qualifications, such as academic credentials, competencies, language ability or practical experience.

a) List the criteria that must be met in order for an applicant's qualifications to satisfy the entry-to-practice requirements for your profession.

From the Surveyors Act:

(3) The Registrar, on his or her own initiative, may refer and on the request of an applicant shall refer the application of the applicant for the issuance of a licence to the Academic and Experience Requirements Committee for a determination as to whether or not the applicant has met the academic requirements or the experience requirements or both prescribed by the regulations for the issuance of the licence.

Direction by Committee

(4) The Committee may direct the Registrar to issue a licence subject to such conditions in respect of completion by the applicant of such academic requirements or experience requirements as are specified by the Committee.

Determination by Committee

b) Describe the methodology used to determine whether a program completed outside of Canada satisfies the requirements for registration.

Applicants' academic transcripts and course descriptions are assessed by a private consultant, who is a geomatics professor. The resulting report is reviewed by our AERC and a final list of additional course requirements is sent to the candidate.

c) Explain how work experience in the profession is assessed.

See a) above. Students must submit a detailed Work Report to their monitor each quarter, which provides details of at least 3 projects they were involved in and a claim for the number of days of experience during that quarter. The monitor reviews the report and provides a detailed response as well as confirming the days of experience to be credited. Additional assignments may be given by the monitor if the student is unable to obtain experience in a particular topic.

d) Describe how your organization ensures that information used in the assessment about educational systems and credentials of applicants from outside Canada is current and accurate.

All candidates are assessed by comparing their academic records against our current academic requirements. If our requirements change, new candidates would be compared to the updated requirements.

e) Describe how previous assessment decisions are used to assist in maintaining consistency when assessing credentials of applicants from the same jurisdictions or institutions.

When reviewing each evaluation the AERC compares it to previous evaluations of candidates from the same or similar programs.

f) Explain how the status of an institution in its home country affects recognition of the credentials of applicants by your organization.

We compare course content, not status.

g) Describe how your organization accommodates applicants with special needs, such as visual impairment.

We have never had an applicant with special needs.

h) State the average length of time required to complete the entire registration process, from when the process is initiated to when a registration decision is issued.

The process is too varied to give an average time. An applicant may complete his or her required courses in 6 months or 6 years. The articling process must be completed in 4 years, however we have had several candidates re-articled after 4 years if they could not complete their requirements or pass their exams.

Most candidates would complete the entire process within 5 years.

i. State whether the average time differs for internationally trained individuals.

Most IEP's must complete a number of local knowledge courses that locally educated applicants would have taken in university, so obviously this would take more time, however this might also be the case for someone educated in another province.

ii. If the average time differs for internationally trained individuals, state whether it is greater or less than the average for all applicants, and the reasons for the difference.

See above.

i) If your organization conducts credential assessments:

i. Explain how you determine the level (e.g., baccalaureate, master's, Ph.D.) of the credential presented for assessment.

We do not assess credentials. We use an external assessment company to validate credentials.

ii. Describe the criteria that are applied to determine equivalency.

N/A

iii. Explain how work experience is taken into account.

Work experience is generally not taken into account.

j) If your organization conducts competency assessment:

i. Describe the methodology used to evaluate competency.

N/A

ii. Explain how the methodology used to evaluate competency is validated, and how often it is validated.

N/A

iii. Explain how work experience is used in the assessment of competency.

N/A

k) If your organization conducts prior learning assessment:

i. Describe the methodology used to evaluate prior learning.

N/A

ii. Explain how the methodology used to evaluate prior learning is validated, and how often it is validated.

N/A

iii. Explain how work experience is used in the assessment of prior learning.

N/A

l) If your organization administers examinations:

i. Describe the exam format, scoring method and number of rewrites permitted.

Statutes examination

- 3 hours
- closed book
- approximately 100 marks
- 65% to pass
- essay questions
- 2 rewrites allowed after the first attempt (i.e. 3 attempts in total)

Written Professional examination

- 4 hours
- closed book
- approximately 100 marks
- 65% required to pass
- essay questions
- 2 rewrites allowed after the first attempt

Each exam question is marked independently by a member or assistant to the AERC. The results are tabulated and if the two marks for any question vary by more than 20% of the value of that question the answer is reviewed by two other members of the AERC at their next meeting.

Oral Professional Exam

This is approximately 1 hour in length. The candidate appears before a panel of 3 examiners. The candidate is given 3 questions, in writing, and is given 10 minutes to consider his or her answers. The candidate may respond in any order, and the panel may ask additional questions relating to the question. The panel have marking sheets to assist them and they decide as a group on whether or not the candidate has passed or failed. There is no appeal to the oral exam.

Candidates may have 2 additional attempts at the oral exam and the written and oral exams are considered independently.

ii. Describe how the exam is tested for validity and reliability. If results are below desired levels, describe how you correct the deficiencies.

Exams are set by 2 members of the AERC and are reviewed by 2 other members plus the Registrar. We maintain a repository of questions and a history of when each question was used and what the marks were for

each. We use mostly previously used questions, keeping in mind the difficulty of each question based on the past history, and add 1 or 2 new questions to each exam. Exams are held every 6 months and each exam is newly compiled. If a particular question is found to be too difficult or is misinterpreted by the candidates we will note this and either revise it or not use it again.

iii. State how often exam questions are updated and the process for doing so.

See above. All exams are newly compiled for each sitting, which occurs every 6 months.

Please identify and explain the changes in your registration practices relevant to this section that occurred during the reporting year.

You can enter decimals to the tenths position only. For example, you can enter 1.5 or 7.5 but not 1.55 or 7.52.
